

Title of Invention

(Below is limited to 1-page only; be careful not to disclose vital technology content. Please delete these words when the document is finished)

PI : Prof. Pi-Hui Liang
Department of Pharmacy, National Taiwan U.

Experience:

<https://pihuiliang.wordpress.com/about/>

Market Needs:

It is not sustainable to obtain the quillaic from soap tree

Our Technology:

We develop a total synthesis of tripterene route from a simple triterpene.

Strength:

These material are synthetic and did not relied on nature source.

Competing Products:

QS-21

Intellectual Properties:

1. We have more than 10 years' experience in the development small molecules for vaccine and anticancer.
